

CASE STUDY

BT SOURCED

Enhancing Supplier Management
with Blockchain

At A Glance

Industry: Telecommunications

Project Type: Supplier Onboarding; Risk Management

Challenge: Needed to streamline onboarding, ensure compliance, and enhance transparency.

Objectives

BT Sourced, managing over 2500 key contracted suppliers, faced the challenge of outdated and inefficient manual processes. Their objectives were clear: to streamline supplier onboarding, ensure stringent compliance, and elevate transparency within their operations. By addressing these goals, they aimed to modernize their approach, enhance efficiency, and foster stronger supplier relationships.

Solutions

BT Sourced opted for Trust Your Supplier (TYS), a blockchain-based platform, to revolutionize their supplier management. By leveraging YYS, they achieved immutable, transparent record-keeping, ensuring full audit traceability. Smart contracts automated compliance checks and streamlined onboarding processes. Additionally, the platform facilitated enhanced collaboration by providing shared access to real-time, up-to-date information, fostering efficiency and trust across their supplier network.

BENEFITS

55%

Reduction in
onboarding time

85%

Supplier adoption rate

65%

Reduction in supplier
questionnaires

Cyril Pourrat
CPO, BT Group

“BT Sourced is committed to driving positive change in the telecommunications industry, and our partnership with Trust Your Supplier amplifies our efforts to create a sustainable supply chain for generations to come.”
