Trust Your Supplier

*The only supplier management system
you need for compliance validation*

The constantly changing landscape challenges an organization's ability to manage risk & compliance programs.

• **Evolving regulations, policies, and guidelines** drive complexity and churn

• Disparatesources of information – **whom can you trust?**

• **Lack of** regulatory and industry **standards**

• **"Swivel Seat" effect and numerous contracts** to access multiple authoritative content providers

Anti-Bribery · Banking · Cyber Security · Identity · Supply Chain · Health & Safety · Sustainability · Financial Health · Diversity & Inclusion · ESG · Sanctions

How do you ensure suppliers are compliant & operating responsibly?

Discovery & Onboarding
Search, review & invite qualified trusted suppliers

Global Standardization
Cross-industry standardized questionnaires and workflows

Compliance & Risk
Integrated risk data sets from authoritative third-parties

Continuous Monitoring
Automation to ensure supplier risk data is kept up to date with evolving market conditions

Visualization, Reporting & Audit Management
Perform advanced analytics to better manage onboarding and lifecycle processes

Blockchain Platform
Immutably records all details of a transaction end-to-end, reducing vulnerabilities.
